

Dividat.

PROVEN THE WORLD OVER

We help people LIVE BETTER, LONGER. Our cognitive motor training and testing platform enables end users and operators to bridge the healthcare and fitness paradigms.

RESEARCH-BASED EVIDENCE

After a decade of **published research** our mission to help aging and diseased populations has evolved into a SIMPLE product that is proven to PREVENT, DELAY AND REVERSE the effects of aging and disease.

THINK & MOVE™

It has been proven that when Generation X, Baby Boomers and The Silent Generation **Think and Move™** on the Dividat Senso they experience dramatic results in their cognition with a minimal amount of time - and it's FUN!

PHYSICAL-COGNITIVE INTERPLAY™

Physical and cognitive training are known to improve overall brain function. When we combine cognitive and motor training, we can strengthen our neuroplasticity and profit from synergistic effects (Improved cognitive health, reaction time, mobility and balance).

FULL-STACK SOLUTION

Swiss design paired with German precision and a decade of global research.

- Hardware/Software/Intelligence
- Cloud-Based
- Small Footprint
- Minimalist Design
